

Flexi8 - What's New!

April 21, 2006

You asked for it... We deliver!

By integrating finely tuned technology with years of feedback from our partners and users, Flexi Family 8 maintains its status as the number one choice for dependable, feature-rich Sign Making software with uncompromising quality. Here are a few highlights of what is in store for you:

New Features

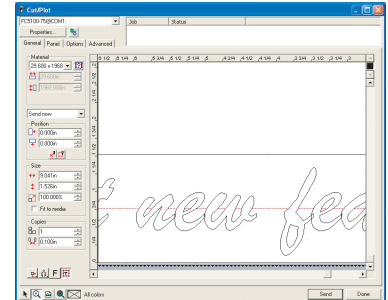

- Output Profiles powered by Gretag Macbeth for best possible Color Fidelity
 - Hundreds of additional Color Profiles
- Object Color Control: view and modify exact output color with on-screen preview
- Vividness Control via a slider on the Color Adjust tab
 - Enables users to control this very subjective element of color
- On-Screen Spell Check
- New Drivers for all the latest devices
- Direct Export of PDF files for customer proofing
- True-Shape Nesting Option conveniently enables objects to be nested based on shapes or holes, minimizing wasted materials
- Weedlines option to split text
- Customizable Shortcut Keys
- Specify Overcut Distance for vinyl cutting to ensure closed shapes

Improved Features

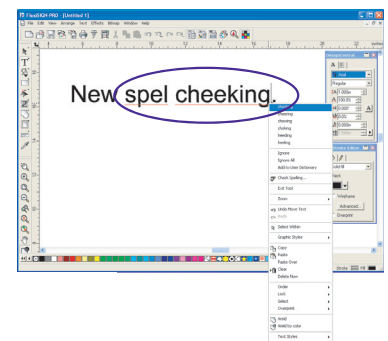

- Upgraded Adobe® RIP Engine
- Fresh appearance including new icons, and a constant smooth, full preview
- Improved Presets make Job Properties more accessible
- Import/Export Filters
- Job Statistics show more detailed information about your project
- PC version now supports Mutoh Ultima Multi-segment capability
- Desktop Printing Improvements
 - Enhanced Laser Engraving Support
 - Apply template for custom job information
- FlexiSIGN and FlexiLETTER now feature Mask and Attribute Selection

To Get The Latest Version

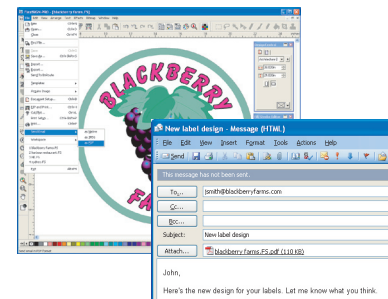

- Verify your User Number and existing version number:
Look in HELP >ABOUT menu
